

Miracles in Busia District Kenya

This is the church in Nameinde which we visited number of times. It is typical of many of the churches in Busia District in Kenya and an area into which we often have travelled over many years. Lots of miracles in this area

1. We arrived to find almost no one but Pastor Dixon and the church. There were 2 funerals and in normal African Culture everyone goes to the funeral. It was suggested we did visitation in the home of the local people.

In one home there was a young deaf and dumb girl who we were able to pray for. We are told as soon as we left the child began to make noises and was soon talking and able to hear. The testimony had a great effect on the people in the area and even though we had no meeting much blessing came to the church.

2. A church in Musia. A lady came for prayer with her children, she had 3 sons' "Last time you were here you prayed for my eldest son, and he had sickle-cell disease, and he was healed. The second son is fine but the youngest son also has sickle cell disease, please pray for him.
3. A man in the same church asked for prayer as he was unable to sleep. A common thing in Africa, in the whole world really. We prayed for him and are told he slept like a baby that night and continues to do so.
4. A lady came with her family who were much troubled in her home. We prayed and on her return home her neighbours came and apologised as they had been practising witchcraft against her for some time. They now realised there was someone greater filling the house. All the lady's problems stopped.
5. A lady who was some weeks overdue in producing her baby was prayed for and gave birth to a healthy child later in the day.
