

Pastor Daniel in Lahore

This is Pastor Daniel in Lahore in January 2023. We visited his church on the first evening there and were aware of his need before arriving. He was barely able to walk having just been very ill in hospital and was also diabetic. While praying before going to see Daniel God spoke to me and said “You do the asking I will do the work”

On arrival Daniel shared his testimony of how he was opposed to the gospel and against his brothers so were having gospel meetings. The Lord Jesus had visited him in the night before he had planned to attack their meeting. He had been and convicted of his sin, He had received the Lord and become a pastor, but his work had ceased through his illness, especially the outreach work.

As we prayed the power of God came down on Daniel. It was like being on holy ground as we watched as God moved. At the end of the prayer Pastor Daniel shared with us that God had spoken to him and told him he had sent me to him so he could be healed and that the doors which had been closed through his sickness would be opened again.

Daniel then stood up and flexed his legs walked and then jumped up and down. He later did this on the platform in the church meeting to show all the congregation that he has been healed.

Finally, as we left him and the photo us us together had been taken he walked us at normal speed back to the vehicle a distance of about 150 metres.
