

Remote Healings

We often have people asking us to pray for their friend or relative who is sick. All one has to do is pray. The Lord Jesus in His own life on the earth prayed for sick people who were not present. Paul sent handkerchiefs over which he had prayed which were taken to the sick relative.

1. A lady who worked in the pharmacy in Jinja Uganda mother was ill. The mother could not eat or get out of bed. Someone had borrowed the vehicle and damaged it so we were unable to get to the remote house. So, we prayed for the daughter in place of her mother. The mother was healed, and I met her fit and well some years later.
2. I had a patient whose daughter had severe mouth ulcers, and no one could solve the problem. They asked me and I went through the list of all the possibilities, and all had been used. I suggested tentatively that there was another way, and we could pray and send an handkerchief. That was agreed and the handkerchief sent to the daughter whose ulceration disappeared.
3. A friend whose brother had had a severe car accident in Germany. He had head injuries and was unconscious. There was a question of brain damage and long-term disability. We prayed and he woke up completely normal the next day.
4. A pastor in Kampala Uganda this year (2023) had problems with his 'waterworks'. He was in a lot of pain and had been advised to have an operation. I told him Jesus was quicker than the doctor, so we prayed. He is completely well and no treatment. WhatsApp call to say thank you.
