

Two very troubled children.

Rev Okumu's wife Alice had a brother Dismus, who had child of 14 years who was very troubled and had caused much difficulty with the family. They had asked for prayer and aa we arrive it was easy to feel the issues and how much this family had suffered with this troubled child over many years.

We asked how old the child was and being 14 years of age the authority to pray was still with the father. As soon as that was said the child ran out of the back door. It was decided to pray anyway and as I did so the deliverance of the Syrophoenician woman in the Bible came to mind. The child had been delivered although not present. So, we prayed and left. The child returned about one hour later completely delivered and has never had any more problems.

In the same area a couple of years later a child was brought who had been tied up with bandages and sheets was very violent and had had a seizure, but had fallen asleep., Again we prayed, and the child was delivered and normal when she woke up

Parents often bring their children as the tell us they cannot sleep. We pray and Jesus comes and they the sleep well.
