

Usigu Kenya

Usigu is a small village on the road from Kisumu to Usenge which goes through Bondo in Siaya District. We visited there a few times and held missions in and around the area.

In on meeting a young man who was travelling though came form prayer with the most awful skin. It was covered in sores and rough places and h=gave him much trouble. We prayed and off he went.

The next time we were back there he came to see us and explained that on his way his skin started to heal, and the sores and rough places disappeared.

He allowed me to feel the beautiful new skin he had, no sores, no rough places. Just perfect skin.
